Post Graduate Year Two (PGY2) Infectious Diseases Pharmacy Residency

Purpose

The PGY2 Infectious Diseases Pharmacy Residency at Duke University Hospital prepares the resident to excel in the care of complex patients with infectious diseases in any setting. Excellence will be achieved by:

- Demonstrating accountability for patient care
- Modeling excellence in infectious diseases pharmaceutical care
- Serving as a professional role model for pharmacy students and PGY1 residents
- Participating in clinical research and performance improvement projects
- Facilitating and leading infectious diseases/antimicrobial stewardship pharmacotherapy discussions

The Residency Experience

The PGY2-ID is designed to give broad exposure to clinical care, program management and research in infectious diseases. Rotations are offered in the inpatient, ambulatory care and consultative settings and include: Adult Infectious Diseases Consults (general and transplant), Antimicrobial Stewardship, Pediatric Infectious Diseases Consults (general and transplant), Microbiology, a unique rotation through the Duke Antimicrobial Stewardship Outreach Network (DASON) and several electives. Longitudinal experiences are provided in the Infectious Diseases Clinic.
